| a) | What is listening skill ? |
| b) | What is Active listening ? |
| c) | Write four barriers to effective listening. |

Q E Read the following passage given below and answer the questions that follows.

2x4=8

The human body builds up and maintains healthy cells , tissues , glands and organs only with the help of various nutrients. The body cannot perform any of its functions be they metabolic , hormonal , mental , physical or chemical

without specific nutrients. The food which provides these nutrients is thus one of the most essential factors in building and maintaining health.

Nutrition, which depends on food, is also of utmost importance in the area of disease. The primary cause of disease is a weakened organism or lower resistance in the body, arising from the adoption of a faulty nutritional pattern. There is an elaborate healing mechanism within the body, but it can perform its function only if it is abundantly supplied with all essential nutritional factors.

- i) What type of function does the body perform ?
- ii) Why do people generally fall ill ?
- iii) Why is the resistance power lower in our body ?
- iv) What type of food do you prefer ? Why ?
